

# Mobilizing European Citizens for Sustainable Energy (RESCOOP MECISE)

Mobilizing European Citizens for Sustainable Energy (RESCOOP MECISE) – is a new Horizon 2020 project. The project aims to link renewable energy projects to energy efficiency investments by supporting collaborations between REScoops and local municipalities. RESCOOP MECISE will provide citizens and local authorities with personal assistance and technical expertise on deep energy renovation projects. The project will set up a European fund for both renewable energy and energy efficiency projects and develop a financial facilitation service for REScoops.
