

## REScoop MECISE

Energy4All, Ecopower, Courant d’Air, Enercoop, Somenergia, and REScoop.eu are partners in REScoop MECISE, a project development assistance project under the Horizon 2020 programme of the European Commission.

REScoop MECISE stands for Renewable Energy Co-operatives Mobilizing European Citizens In Sustainable Energy, and will last 4 years (2015-2019). Thanks to active support, the project partners will develop renewable energy projects and use part of the revenues to initiate energy efficiency investments in private homes and public buildings. This approach aims to enforce the relationship between REScoops and local authorities.
